# The "Man's Store." DR. GREENE STAYS AWAY FROM PULPIT

Allays Fears of Congregation at Services.

HIS BUTLER HAD SMALLPOX

Pastor of Calvary Baptist Church Understood Alarm of the Worshipers, and Thoughtfully Procured Another Pastor, Who Preached at Services-Not to Appear Sunday.

Rather than risk arousing the fears of H. Greene, pastor of Calvary Baptist Church, whose negro butler was recently a smallpox patient, turned his pulpit over to another minister yesterday, and at neither morning nor evening service visited the church.

As Dr. Greene explained, his action was entirely voluntary, believing it best to give his congregation the benefit of any Derbies or soft shapes and the doubts they might have as to the danger best and classiest headgear you've of his appearing among them. He explained that while his home was under quarantine, he had personal passes for himself and family to leave and return

None of the members of his family, said or. Greene, had been ill in any way, and ost certainly had shown no symptoms smallpox. He said the negro butler, who was removed from the house, there by causing the quarantine, had recovered from his affliction and had been disharged from the hospital.

# "Homes of a Hundred Ideas"

\$5,850.

Open Until 9.

Saturday we made the positive statement that these homes were the most complete and the best value this city has ever seen. This is not boasting, but facts—real facts—facts that no man can deny after he inspects your "sample home."

We now make another positive statement that these homes are worth more money than what we are selling them for, and within a few years will, in our opinion, resell for more money. Every line, every feature, every room in these "Homes" has been planned by the women of Washington. They are absolutely complete in every detail, and it is an education to see our "Sample Home."

OPEN UNTIL 9 O'CLOCK AT NIGHT. It is a sinful waste of money to rent after terms like these are offered you.

We will sell you one of these "homes" on monthly payments of only \$37.50, including every gollar of interest—and an average of over \$25.00 goes toward paying for your home. To illustrate: Suppose your grocery man would say, "I will give you \$37.50 worth of groceries each month, but will arrange it so that an average of over \$25.00 will come back to you as money saved." You would accept that. Our proposition is the same thing.

You know the difficulty of renting a desirable nine-room house under \$40 or \$50.

It only requires a cash payment of \$850.00 to secure the advantage of these remarkable terms. The sample "home" is the only one we have finished. Come and examine it; examine it carefully, if you like it, if you think it is the best value in the city. You can then make an appointment with us to give you facts and figures on these terms. Don't put your visit off. These homes are not going begging.
